

# Sage 100 ERP

## Fixed Assets\*

Manage your fixed assets effectively from acquisition to disposal, account for their value, and reap tax benefits whether you have a fixed asset inventory of 10 or 1,500. The Sage 100 ERP (formerly Sage ERP MAS 90 and 200) system offers Fixed Assets—designed to meet the needs of small and mid-sized businesses, providing you with fast, dependable, customizable fixed asset management to maximize your bottom line. Fixed Assets combines acknowledged depreciation expertise and user-friendliness with the added power, data security, and functionality that your business situation demands.

Run projection depreciation calculations, create IRS-ready depreciation tax forms, and move fixed assets between business units with ease. Fixed Assets provides you with the additional ability to execute partial and whole transfers and disposals, conduct bulk disposals with automatic gain/loss calculations, and track transfer activity with as little as a single keystroke.

You also get extra security features at the system level, company level, and user-defined menu levels, such as complete audit histories on all changes made to the fixed asset system. In addition, SmartLists provide user-defined values for each asset descriptor, ensuring a high level of consistency throughout the asset system. Easy to install, customize, and use, the Fixed Assets module is a comprehensive solution within your Sage 100 ERP system.
