

Sage 500 ERP

Credit Card Processing

Sage 500 ERP (formerly Sage ERP MAS 500) Credit Card Processing by Sage Payment Solutions gives Sage 500 ERP customers the benefits of comprehensive business management coupled with the benefits of credit purchase processing—all from Sage. What's more, having all payment processing in-house with Sage Payment Solutions enables Sage to pass savings on to our customers, resulting in lower total cost of ownership.

Studies show that more and more purchases are being made with credit cards each year, and vendors accepting credit card increase their sales by 15 to 50 percent. Sage 500 ERP customers can take full advantage of this opportunity with the ease and efficiency offered by fully integrated credit payment processing.

Whether your customers place orders over the phones, through mail order, or through a web page, Credit Card Processing provides a complete solution. Data can be entered through the Sales Order and Accounts Receivable modules. Transactional information, such as authorization codes, is captured and stored for historical and reconciliation purposes. Fraud prevention features protect both you and your customers from unauthorized credit card usage.

BENEFITS
