

ConventionSuite is able to simplify your operations and increase productivity. It is an ideal solution to the general contracting and show management needs. But you don't need to take our word for it; hear what our happy customers have to say—

Las Vegas Expo was established in 1994 by president and founder, Robert Cordaro, and is a privately owned and operated exposition company specializing in trade shows, corporate meetings, and special events.

Las Vegas Expo's mission is to continually provide service that exceeds expectations with hard work, honesty, fairness, and integrity.

They are able to do this by staying ahead of the curve with state-of-the-art technology, amazing customer service, and with decades of experience and a passion for making your next trade show or special event the most successful yet.

ConventionSuite impacted our processes and efficiency in a very positive way. We wanted to be on par with our largest competitors without the same sized budget. We are now a medium sized company with the same tools as a Fortune 500 company. We are able to produce more with less money because we are able to rely on ConventionSuite for many details and processes. I also really appreciate the seamless integration of accounting, CRM, inventory management, and exhibitor services all into one simple system. During implementation, NewGen's staff paid great attention to detail and offered a lot of flexibility. They were able to completely customize the software to match our operations. I look forward to the return on investment for years to come and I highly recommend working with NewGen Business Solutions.

Nick Cordaro

Rosemont Exposition Services, Inc.

Rosemont Exposition Services, Inc. offers exhibitor show services. The company's services include furnishings; exhibit rentals; utilities, such as electrical, plumbing, phone, Internet, and cleaning services; labor, including electrical, plumbing, carpentry, rigging, and decorating services; shipping\ freight; and custom signs, catering, vinyl graphics, Internet access services, and VU case. It also provides area information, including hotel, restaurant, and area activities. The company was formerly known as O'Hare Exposition Services, Inc. and changed its name in January 1990. Rosemont Exposition Services, Inc. was incorporated in 1988 and is based in Rosemont, Illinois.

RES's professional staff arranges floor plans, supplies complete and detailed exhibitor manuals, provides continuous on-site services and supervision, and maintains a vast inventory of state-of-the-art exhibit equipment—all ON-SITE at the Donald E. Stephens Convention Center.

When it was time to replace the web-based portion of our services, we decided to upgrade to ConventionSuite. This was a proactive choice that ensured consistent support and function in the future. The NewGen team handled the implementation and customization very well, and I'd highly recommend using their services. Overall, the software and relationship with NewGen Business Solutions have been very positive experiences and I look forward to even more well-maintained operations going forward.

Dave Houston

ConventionSuite is a complete enterprise management integration package built around the NetSuite system specifically developed for the convention, exposition, and trade show industry. ConventionSuite supports trade show operations that require a competent suite of event and show site reports, along with rental categories and departments. The suite also contains a customer self-service portal, custom key performance, dashboard, and several configurable benefits such as unique workflows.

Overview

- Complete NetSuite CRM integration
- Customer self-service portal
- Collaboration documentation by booth/exhibitor
- Upload custom booth from exhibitor's plans with instant feedback
- Custom workflow by show type
- Unlimited history separated by show
- Provide customer/show history for annual reviews
- Custom key performance dashboard
