

PayPal Integration

NETSUITE NOW INTEGRATED WITH PAYPAL FOR SMALL AND MIDSIZE COMPANIES

With NetSuite, you can efficiently run it all—Web store, inventory management, order fulfillment, accounting, customer relationship management, and more. NetSuite makes it possible for you to deliver the best online shopping experience for your customers and to better manage and grow your entire business with a single system. With PayPal, you can start accepting credit cards and other forms of payments quickly. In just a few clicks, you can sign up for a PayPal account and link it to your NetSuite web store.

PayPal Integration means Easy, Secure and Complete Online Payments

- It is simple to activate – in just minutes
- Industry-leading fraud-prevention systems to help do business safely
- Seamless end-to-end online transactions with real-time visibility
- Merchants can accept all major forms of payments and transact in six currencies
- Your buyers do not need a PayPal account to pay

How It Works

Customers can pay you with

Visa • MasterCard • American Express • Discover • Bank Transfers • PayPal balance

Pricing and Fees

- No setup fees
- No monthly fees
- No gateway fees
- No cancellation fees
- Transaction fees: 1.9% to 2.9% + \$0.30 USD per transaction based on monthly volume
